Date of birth: 8 March 1970

Profile

I have now been working in the entertainment industry as a rigger specialising in Stunt Rigging for approx. 18 years. This work has seen me work in Namibia, South Africa, Thailand, The Dominican Republic, New Zealand, Canada, the USA and through out Australia. In addition to the film industry, I work extensively in the concert, live show and aerial performing industries. I am equally at home working on industrial rope access and construction rigging jobs. My main focus is on safety so I have also completed my certification in Height Safety Management as well as Equipment Inspection, allowing me to inspect, test and tag equipment.

Having gained such a wide variety of rigging skills and experience, I decided to gain my Trainer & Accessor qualification so I could help in the education of others. As a result I have been fortunate enough to instruct many people in stunt rigging, construction rigging, industrial rope access, abseiling/rappelling and rescue systems operation.
